Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A, drawn to embodiment 1 and Figures 3 – 5.

Of Species A, there are the following sub-species:

Sub-Species A1, drawn to uniform cylindrical light extraction devices, Figure 4b.

Sub-Species A2, drawn to uniform rectangular light extraction devices, Figure 4a.

Sub-Species A3, drawn to the increased density of the light extraction devices along the length of the light pipe, Figures 3a and 5a.

Sub-Species A4, drawn to the increased in size of the light extraction devices along the length of the light pipe, Figures 3b and 5b.

Species B, drawn to embodiment 2, and Figures 2, and 6-8.

Of Species B, there are the following sub-species:

Sub-Species B1, drawn to the non-smooth tapering of the light pipe for light extraction, Figure 6.

Sub-Species B2, drawn to the smooth tapering of the light pipe for light extraction, Figure 7.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed Species A or B. If Applicant elects Species A, Applicant is further required under 35 U.S.C. 121 to elect a Sub-Species A1 or A2 and Sub-Species A3 or A4. Alternatively, if Applicant elects Species B,

Art Unit: 2883

Applicant is further required under 35 U.S.C. 121 to elect a Sub-Species B1 or B2 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
